DELMARVA'S CHICKEN BUSINESS

IS IMPORTANT TO YOU!

The Delmarva Chicken Industry is BIG! More important than its size, however, is its GREAT IMPORTANCE TO ALL DELMARVA CITIZENS.

Just how big and how important, most of us don't realize. So, below is a box-score listing of a few of the important details about Delmarva's chicken business.

Annual production..........................180-million chickens
Value of product last year...............$156-million
Annual payroll..............................$45-million
Number of growers and farm workers.........7002
Processing plant workers....................3794
Other people in the industry...............2000
Annual feed bill............................$67-million
Cost of chicks started last year...........$22-million
Value of broiler houses & equipment........$50-million

Some special production costs last year:

Vaccinating chicks..........................$2,700,000
Fuel bill for the industry..................$4-million
Bags, tags, crates, boxes....................$9-million
Electricity..................................$2-million
Hauling feed, chicks and chickens...........$13-million
Fire insurance premiums....................$850,000
Litter, sanitary spraying of houses........$1,350,000
Total industry bill for telephone calls,
  telegrams and postage stamps.............$500,000

Does the industry have room to grow? Sure does! Last year, Delmarva processing plants turned out 152-million chickens-ready-for-market without half trying. Working two full 8-hour shifts a day at full capacity, they could turn out 300-million chickens a year.

LET'S KEEP DELMARVA GROWING!

(These figures are for the year 1957)
FACTS ABOUT DELMARV'S POULTRY INDUSTRY

- 1961 -

Annual production............................... 207-million chickens
Farm value of product......................... $126-million
Annual payroll...................................... $47-million
Number of growers and farm workers......... 5,396
Processing plant workers........................ 2,936
Other people in the industry.................. 1,850
Annual feed bill.................................. $ 82-million
Value of chicks started....................... $ 23-million

Miscellaneous production costs:

Vaccinating chicks.............................. $2,620,000
Fuel bill for the industry...................... $5,225,000
Bags, tags, crates, boxes...................... $9,230,000
Electricity.................................... $2,650,000
Telephone calls, telegrams and postage...... $ 698,000
Fire insurance premiums...................... $ 885,000
Litter, sanitary spraying of houses........... $1,696,000
Pick-up, processing, delivery............... $39,000,000
Chickens dressed and delivered.............. $165-million
Value of corn and soybeans for feed......... $45,480,000
Bushels of corn for feed..................... 18,500,000
Bushels of soybeans for feed ................ 8,900,000

Total value of poultry industry on Delmarva - 1961 gross income, including the value added by processing plants was $139-million

1961 total income (McAllister) - $112-million
206,900,000 tons feed consumed - roughly 1-million
Number of chicks hatched - 196,907,000
FACTS ABOUT DELMARVA'S BROILER INDUSTRY

1964

Annual production........................................248-million broilers
Farm value of product.....................................$145-million
Annual payroll............................................$ 53-million
Number of growers and farm workers..................5143
Processing plant workers................................3190
Other people in the industry.............................1840
Annual feed bill..........................................$101-million
Value of chicks started..................................$ 27-million
Value of capital investment.............................$147-million
Vaccinating chicks........................................$ 3,175,000

Fuel bill for the industry:

- Oil...........................................$ 3,111,000
- Gas...........................................$ 2,863,500
- Coal...........................................$ 111,500

Bags, tags, crates, boxes.................................$ 11,498,500
Electricity..............................................$ 3,015,500
Telephone calls, telegrams, postage....................$ 975,000
Fire insurance premiums.................................$ 1,114,500
Litter, sanitary spraying of houses.....................$ 2,168,500
Chickens dressed and delivered.........................$184,600,000
Value of corn and soybeans for feed...................$ 47,000,000
Bushels of corn for feed...............................21,300,000
Bushels of soybeans for feed...........................12,000,000
Broiler house capacity..................................68,000,000
FACTS ABOUT DELMARVA'S BROILER INDUSTRY

1965

Annual broiler production .................................. 260-million
Farm value of product ........................................ $169-million
Annual payroll .................................................. $ 55-million
Number of growers and farm workers ....................... 5,189
Processing plant workers ................................... 3,215
Other people in the industry ................................. 1,865
Annual feed bill ................................................ $112-million
Value of chicks started ....................................... $ 31-million
Value of capital investment ................................. $169-million
Vaccinating chicks ............................................. $ 3,800,000
Fuel bill for the industry: Gas .............................. $3,153,150
Oil .......................................................................... 1,261,260
Coal ........................................................................ 90,090
Bags, tags, crates, boxes ..................................... $12,630,000
Electricity ............................................................. $ 3,015,500
Telephone calls, telegrams, postage ....................... $ 1,005,000
Fire insurance premiums ...................................... $ 1,225,000
Litter, sanitary spraying of houses ......................... $ 2,324,500
Value of chickens, dressed and delivered ............... $208,050,000
Bushels of soybeans used for broiler feed ............... 15,600,000
Bushels of corn used for boiler feed ...................... 25,300,000
Farm value of this grain needed for broiler production .................................. $ 74,000,000
Broiler house capacity ...................................... 70,000,000
FACTS ABOUT DELMARVA'S BROILER INDUSTRY
1966

Annual broiler production .................. 281-million
Farm value of product ...................... $171-million
Annual payroll ............................ $ 59-million
Number of growers and farm workers ....... 4831
Processing plant workers .................. 3316
Other people in the industry ............... 1944
Annual feed bill .......................... $126-million
Value of chicks started .................... $ 33-million
Value of capital investment ................. $178-million
Vaccinating and debeaking chicks .......... $ 4,330,000
Fuel bill for the industry: Gas .......... $ 3,635,500
Oil ......................................... $ 880,500
Coal ....................................... $  60,065
Bags, tags, crates, boxes .................. $13,395,000
Electricity .................................. $ 3,561,000
Telephone calls, telegrams, postage ....... $ 1,115,000
Fire insurance premiums ................... $ 1,521,500
Litter, sanitary spraying of houses ....... $ 2,493,750
Value of chickens, dressed and delivered $206,000,000
Bushels of soybeans used for broiler feed 8,500,000
Bushels of corn used for broiler feed .... 28,800,000
Farm value of this grain needed for broiler production $62,600,000
Broiler house capacity ..................... 76,000,000

---

During the past two years, DPI has spent a great deal of time and money on the Investment Tax Credit (ITC) issue. These efforts were rewarded when the 1978 Revenue Act became law on November 6, 1978. This allows ITC on new poultry houses and major capitalized poultry house repairs and renovations. This means over a one million dollar tax saving annually for Delmarva growers.
*1979 FACTS ABOUT DELMARVA'S BROILER INDUSTRY

Annual broiler production ........................................... 420,000,000
Broiler house capacity .............................................. 92,500,000
